

Civil Engineering is a broad spectrum and one of the oldest professional engineering disciplines that deals with the design, construction and maintenance of the physical and naturally built environment. The main objective and intention behind Civil Engineering is not only to make the lives of the people comfortable & secure but also to beautify our surroundings in a stronger and safer way.

We at IOT Zakura will try our level best to inculcate theoretical as well as practical knowledge of the subjects in our students. Career opportunities for these young professionals/entrepreneurs are available with firms of both the private & public sectors and are having scope of attaining lucrative and worthwhile carrier.
