India

Notice

It is for the information of all the 8th Semester students that their mid-term project evaluation will be conducted on the 5th of September 2023 from 11:00 AM sharp in the control and instrumentation lab. The following instructions should be strictly followed while presenting your work:

1. The presentation should only have eight slides, including an introduction and thank you slide.
2. Your presentation should include a schematic block diagram of your work, contributions, modelling, problem formulation and results only. Try to make it as precise as possible.
3. No project reports have to be submitted for midterm evaluation.
4. Each group will be given only 10 minutes to present their work, plus five minutes for answering the questions.
5. Any of the group members may be asked to present the work, so all members should come prepared.
6. Anyone failing in the midterm project evaluation will not be eligible for the end-term external project evaluation examination.

All the Department of Electrical Engineering faculty members should make it convenient to be present for the project evaluation.

Ubaid Qureshi
Incharge Projects
