MECHANICAL ENGINEER

To secure an entry-level position in a reputable organization where I can apply my skills and knowledge to contribute to the growth and success of the company while continuously learning and developing my expertise. Highly motivated and detail-oriented mechanical engineer with a strong foundation in mechanical principles, design, and problem-solving. Eager to apply theoretical knowledge and skills in a real-world setting to contribute to innovative projects and continuous learning. Experienced in identifying issues and repairing mechanical and electrical defects. Substantial experience in analyzing problems and offering mechanical devices that help to alleviate them.

SKILLS

- Proficient in repairing electrical and mechanical devices, with a strong foundation in hands-on problem solving and DIY project execution.
 - Skilled in diagnosing and fixing devices, with extensive experience in home-based projects and self-directed learning.
-

EDUCATION

Secondary School Education (2018 - 2019)

Tyndale Biscoe School

Higher Secondary School Education (2020 - 2021)

S.P. School

Diploma in Mechanical Engineering (2022 - 2025)

Govt. Polytechnic College

PROJECTS

- Successfully built a scale model of Watt's indicator mechanism, showcasing proficiency in mechanical design and construction.
- Researched and replicated the historical Watt's indicator mechanism, demonstrating understanding of mechanical principles and historical context.
